Name: Beckenstein Fabrics

Presenting Problem: heading of the website seems a bit unorganized and can be cleaned up. The Grey background gives it a unattracted feel. There are visibly uneven margins. Color and detail need cleaning up so that the user can gather the information they need as quick and easy as possible.

Solution: provide a brighter and cleaner canvas. To make sure they have easy access to all the info in the website. To make certain aspects more user friendly . find a way to shorten long information so the user won't scroll so much
